

NASA FAILS

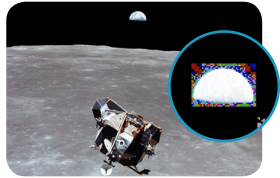

YouTube Bubbles IN SPACE

NASA 'trains' its astronauts in a pool... Coincidentally, in many NASA spacewalk videos, bubbles are visible moving through 'space.' Drain the pool, NASA!!

NASA'S CGI BLUNDERS

NASA has been caught time and again faking space. From stop-motion animation – to Green screen glitches – to bad Photoshop – to countless CGI planets and images.

Footage shows Neil Armstrong and crew discussing how to FAKE the famous view of earth using the shape of the window.

NASA'S BUDGET 52 MILLION A DAY

... and all we get is a lot of CGI.

NASA is really bad at faking it... All we have to do is be willing to investigate, and admit we were conned.

"NOBODY IN HUMAN HISTORY, AS FAR AS I KNOW, HAS THOUGHT THE WORLD WAS FLAT."

WHO WE ARE

A community of diverse, free thinking people, coming together to challenge the globe earth lie, and share the fact that we live on a flat, stationary plane. We are reclaiming our ability to think for ourselves to discover where we really live. And face what this revelation actually means.

- This **FLAT EARTH DISC IN SPACE** image is pushed by controlled opposition, like the *Flat Earth Society*.
- It is at the top of **GOOGLE's** search results, to look ridiculous, and discourage research.
- **NO** Flat Earther actually believes this is where we live!

- This is a very close representation of where we actually live. Based on an ancient map from 1587.
- The flat earth plane or realm is scientifically possible, unlike planets and stars, floating in a scientifically impossible space vacuum.

TOP 10 FLAT EARTH PROOFS

1 WATER IS A NATURAL LEVEL

★ No curvature is ever detected over bodies of water. All liquids, when undisturbed, are always flat. This is what we observe.

2 AIRPLANE LEVEL FLIGHTS

★ The FAA assumes a flat earth when training pilots using their Target Generation Facility. An airplane traveling 500 mph would have to compensate for a drop of 2,777 ft every minute to maintain cruising altitude and not fly off into "space."

3 SCIENCE SAYS IT'S STATIONARY

★ Every scientific experiment has proven earth is completely stationary. The sun, moon and stars move around polar center above us.

4 HORIZON IS ALWAYS EYE LEVEL

★ High altitude balloon footage without a fish-eye or GoPro lens always shows a flat earth.

5 We See TOO FAR

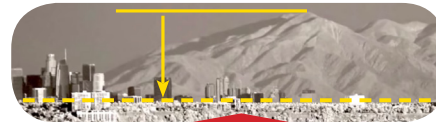

★ Mt. Canigou in France is seen 175 miles away - according to the curvature formula of earth (8" x mi²), the peak should be 3,000 feet below the horizon. Infrared is very revealing!

Mt. San Jacinto (123 mi)

*Mt. Peak should be here on a Curved Earth

6 PLANE FLIGHTS

★ Flights make fuel stops every day that make no sense on a globe. But, make perfect sense on a Flat Earth.

7 JETSTREAMS

★ Jetstreams: Globe Earth vs Flat Earth. Which one makes more sense?

8 SUNRAYS

★ The Sun is not millions of miles away. We can trace the angle of sunrays back to their source above the clouds. The sun is clearly NOT 93 million miles away, but rather relatively close.

9 GRAVITY IS MAGIC!

★ Gravity is a theory easily explained by DENSITY and BUOYANCY. It was needed to justify everything being pulled to the center of a spinning ball - that's 3 sextillion pounds of water.

10 BOATS OVER THE CURVE?

★ The introduction of the Nikon P900 was a real problem for the supposed curve of the earth. Just ZOOM IN!
